A type of task is a logical grouping of associated items. For example, the "Summary" task type includes information about the progress, status, and outcome of the work that you're doing. > [!IMPORTANT] > If you use a version of Team Foundation Server before version 11, you cannot add or modify a task type. To modify or add a task type, upgrade to the latest version of Team Foundation Server. For information about upgrading,

see [Upgrade an Application Project to a Team Project](../../extensibility/upgrade-to-team-project.md). ##

To add a task type 1. In **Team Explorer**, click **Task types** on the **Home** tab, and then click **New**. 2. On the **New Task Type** dialog box, click **OK**, and then specify a name for the task type. 3. Specify a task list for the task type by selecting a task list from the **Task List** list and then selecting one or more items from the list. If the task list doesn't appear in the list, click **Details** on the task list to open a dialog box and select the task list. For more information about task lists, see [Task Lists and Task Lists Dialog Box](../../team-foundation/task-lists-and-task-lists-dialog-box.md). 4. To add items that are included in the task type, click **New**, and then specify a type of item that you want to add. ## To add a task type to an existing project
