Source(s) Kongi's Harvest A Graphic Novel read online freeQ: Passing function arguments from one function to another I'm passing a function parameter from one function to another in Angular 5. I can't get the param to pass, the output shows that in the first function, the param is passed, but in the second function it isn't. Both functions are service functions and are linked by providers. ngOnInit(): void { this.getInventoryAndItems("./inventory.json"); this.getInventoryItems("./item-list.json"); } getInventoryAndItems(resource: string): void { this.inventoryService.getAllItems().subscribe(inventory => { this.inventory = inventory; this.getItemsList(inventory); }) } getItemsList(items: string[]): void { this.itemsService.getAllItems(items) .subscribe(items => { this.items = items; this.computeAllStats(this.items); 2d92ce491b
