in.Q: How to write properly the npm install? I try to install the node modules with npm. And the top directory of the project is the /project/modules. In this directory, I have a my-vue.js file. When I enter \$ npm install I've got these two folders : node_modules my-vue/node_modules But everytime I try to enter \$ npm install I've got this

error : npm ERR! node v6.10.0 npm
