If you need a professional and efficient keymanager, try KEYMACRO! It has been specially designed for keyboardists, string musicians, guitarists and other stringed instrument players. KeyMACRO provides you with an easy-to-use interface with a lot of useful features. It makes even the most complicated arrangements and complex chord sequences easy to play. - It does not require any installation. The application is a USB stick and can be used with any computer. - The main screen of the application shows the current key sequence. You can edit the chord or you can record the current chord in WAV, MP3 or MIDI file format, saving it to the USB stick. - There is a chord view that shows the chords of the currently selected barcode. This makes it possible to choose, for example, any jazz chord. - You can mark parts of the chord that are not played, making it possible to save it in a separate part of the USB stick. - There is a convenient facility for arranging the chords for the music. You can drag-and-drop the chord parts that you want to play. - The program supports only Microsoft® Windows® operating systems, including Windows 8, Windows 7, Windows Vista, Windows XP and Windows 2000. The software is absolutely free to download. KeyMACRO is available for download for free from www.keymacro.net KEYMACRO KeyManager for musicians and guitarists.
