The service will give you the ability to follow your Twitter friends in an instant. It allows you to do this to find new people who can follow you and follow you back. What can you do with Twitter Friends? 1) Boost your Twitter profile. 2) Easy to Create Twitter followers instantly 3) Can add your followers to your email address list 4) Add followers easily to your profile 5) Track your followers 6) Manage your followers 7) Retweet any status in seconds Twadder Requirements: 1) iPhone 4 or better. 2) Tweetdeck 3.0 or better 3) Java Script must be enabled How do you want to manage your followers? You can view and manage all the followers in your own user account page by simply signing into your Twitter account with your username and password. The ability to manage your followers is not only useful for staying connected to people, it's also good for analytics and user feedback. How to Manage your Twitter Account: 1. From the home screen, tap the account icon in the upper-right hand corner. 2. Tap "Account Settings" and then "Manage Account". 3. A screen will open where you can view your followers. Features: - Download your followers into your e-mail address list. - View, edit and delete your followers. - View your real followers only. - View your followers by language. - Change your avatars and identify yourself from your phone, e-mail or other Twitter services. - Delete your followers permanently. How to Use the APP: 1. Install the app

Twadder License Keygen For PC

KEYMACRO is a Twitter automation software to help you automate the process of promoting your Tweets and Tweets from your Tweets on Twitter. Simply select the Twitter profile of your choice, post the text you want to be automatically posted and assign it to a Keymacro. After the Keymacro is set, it will automatically post the text to Twitter in real time. You can also schedule the Keymacro for weeks and months in advance, and it will run on schedule. KEYMACRO provides a Windows interface and can run on both Windows 2000/XP/Vista/Server/7. It requires .NET Framework 3.0 or higher. KEYMACRO Features: - Auto Send Texts to Twitter in real time - Auto Post Tweets to Twitter - Automate Multiple Twitter accounts - Sends Tweets to a Twitter List - Scheduling of Tweets - Filters Tweets by Status, Author, Location, Language, and Time - Schedule Tweets with up to 52 weeks - Email Notification of Tweets - Support Twitter Rest API (The Twitter API can be used to automate the sending of Tweets and Tweets from Tweets.) - Tweets using Twitter Streaming API - Keymacro to post Tweets from your Twitter stream - Fully configurable - Can process Tweets from thousands of Twitter accounts - Can download Tweets from Twitter in XML and CSV formats - Shows Tweets in a Tabular Form - Can post Tweets from your Twitter account using a list of Twitter IDs - Supports multiple Twitter accounts (currently supports only one Twitter account for now.) - Supports multiple Twitter accounts, Twitter Filter (Status, Author, Location, Language, Time), Schedule, multiple Tweets, REST API, Tweets in XML and CSV formats, Tweets from Twitter streaming API, Tweets from a single Twitter account, and tweets from multiple Twitter accounts in an email or notification. CUSTOMER REVIEWS: 77a5ca646e
