Jan 1, 2020 From the review: "the game could also stand to do a lot more with its gameplay. All the land and sea courses are new, but for the most part, they feel like fairly standard "o" cups with a few special quirks that are seemingly there as novelty rather than any kind of true legibility. The tracks and shortcuts in the game are also a little disappointing, in that they don't really have a clear reason for existing outside of just feeling like the right level to turn around in. With only a scant handful of (mostly) fairly bland shortcuts, the temptation to go through the rather barren open area that is indeed playable becomes very high."
