"You don't expect anything less from young kids, you know, who have not played a lot of football," UAE boss Fahad Al Muwallad said. "They have to struggle, they have to train for so many hours with these young boys, and they are talented. "And it shows they are strong, they are hardworking." Deekaylles said it was not yet clear whether the players would be back for games in September, but "if they have the passion, the fans will come to watch them again".Q: How to use sub Query in SqLite using Java I'm working on a project about a vehicule tracking system. I need to use a table named "tracking" for keep info about the vehicle. I have written a query which looks like this: int tracking_id=1; String sql="SELECT * FROM tracking WHERE id=? LIMIT 1;"; Cursor cursor = ourDB.rawQuery(sql,new String[]{String.valueOf(tracking_id)}); Then i just read all the data in the cursor and put it into an ArrayList. But I have to use a sub-query String sql="SELECT * FROM tracking WHERE id=? AND vin=?;"; How can I write this kind of query and read it in a sub-query? thanks for your help. I'm using this method to read the data from the cursor. ArrayList arrayList= new ArrayList(); int columnCount = cursor.getColumnCount(); int rowCount = cursor.getCount(); for(int i=0; i
