And as for the video: If I were going to make the video, I would make a very good no nothing, trailer type thing, including the fact that it is a music video, etc. But having said that, I would be lucky if I am able to get decent footage, as well as moving it around on my hard drive (which probably wouldn't do to have my hard drive fall on my screen just as I am playing it). It's your move. What do you think?
