As per the schedule, I have to report weekly under my senior. I have completed one of my tasks for that. But, I am facing some issues related to that. So, I would like to get some suggestions from everyone. This invention relates to apparatus for controlling the shape of the lower eyelid, and the color and contour of the upper eyelid. The conventional methods of changing the shape of the lower eyelid are to use a tapered thread or wire which is inserted between the lower eyelid and the upper eyelid to keep it open, or to use a number of small slits in the lower eyelid. Those solutions are inconvenient to the patient or too severe for the easy exercise of the patient. In general, there has been nothing except the eye glasses to facilitate such exercises as the removal of wrinkles, improving the eyeballs or the like. For the above reason, the number of patients who has no interest in the exercises is increasing.

Q: SQL syntax with less error prone I'd like to ask if I have the following query SELECT V.Productname, SUM(V.qty) as qty FROM Vendors V INNER JOIN Vendorsinvoice VInv ON V.Productname = VInv.Supplier WHERE VInv.date BETWEEN '8/1/2014' AND '8/7/2014' AND V.state = 1 At this query if supplier is changed than it is showing all the vendors with their qty, I want to make it such as If I changed supplier then it will show only the vendors who have supplied on the given date. Please let me know how to modify this to do that. A: Use a correlated subquery: SELECT V.Productname, SUM(V.qty) AS qty FROM Vendors V JOIN Vendorsinvoice VInv ON V.Productname = VInv.Supplier WHERE VInv.date BETWEEN '2014-08-01' AND '2014-08-07' AND V.state = 1 GROUP BY V.Productname HAVING SUM(V.qty) > 0; For an index on VInv(date,

I'd like to track an Event on my google calendar, and I don't want to track it on the calendar of the person I am doing the translation with. A: From Google Calendar, you can assign a google group to a calendar. Event names are not relevant, no. If you have permission to access that calendar, you can then retrieve all events for that calendar from the google group. Then, you can exclude events in your google calendar by doing something like this: \$googleCal = new

```
google_calendar_api($client); $cals = $googleCal->calendarList->getList("gs-id:". $myCalendarId);
$cals->setVisibilityFilter('allUsers'); foreach($cals as $cal) { $events = $cal->getEvents(); $event =
$events[0]; if($event['recurrence']['type'] == "RRULE") { $event->setRecurrence(new google_recurr
ence('FREQ=YEARLY;UNTIL=' . $expDate . ';BYMONTHDAY=' . $event['recurrence']['bymonthday'] . ';BYM
ONTH=' . $event['recurrence']['bymonth'] . '); 1cdb36666d

Re: miss out on the best telugu film weekend in march! >> I think you should put that list and this one in separate posts. That way, you can avoid misunderstandings. Otherwise, whenever you want to post another post, just reposting the same dialog will be a problem. I agree with you. Don't you have a place for general posts. I don't know if there is any place like that. But, I think, you can put it in two separate posts. Read it carefully. I gave you a brief description in my earlier post I am not looking for a subjective opinion. I am looking for a factual information and my own experiences regarding languages or statements. It is up to you. Either way, don't just change the description. Re: miss out on the best telugu film weekend in march!
