A series of 1,1'-diazacrown compounds derivatized with phosphonate or sulfoxide moieties was synthesized as potential inhibitors of a Lys48-linked ubiquitin chain, which plays an important role in cell cycle regulation. Sulfoxide and phosphonate moieties are generally regarded as ionic or hydrogen bond acceptor groups, respectively, and are frequently included in molecules targeted to polypeptides. Most phosphonate crown ethers were relatively insoluble in aqueous media, whereas they were readily soluble in organic solvents and could be prepared in aqueous solution using a palladium-catalyzed reaction. Studies of these compounds with a model peptide and with a ubiquitin analogue suggested that they bind to a Lys48-linked ubiquitin chain by neutralizing the positive charge

He's seen looking like a small, fat, red monkey with human legs, but that's probably because he's used to sitting on the shoulder of an old woman who looks like that. Smedbo ventures to the meat-packing district and speaks to the thief in the red suit, casually, while standing at the entrance of the restaurant. But the conversation turns ugly fast and, before you know it, the thief is gone and the old woman is dead. Will the thief really try to get Smedbo to cough up all his money? Well, it turns out that the thief has a plan. He takes the old woman's necklace, which he's assuming is valuable, and that's when you realise that the old woman is really an old djinni and that the necklace is some sort of spell to summon up another djinni. The effect is that the real owner of the necklace, the slave merchant, sits down next to Smedbo and starts beating him up - not gently, as a real human would do - until he's lying on the

floor, bleeding and scared. But before he can finish Smedbo and the djinni, the djinni is gone and, most oddly, the slave merchant is gone too. Instead, there's a rough-looking man who's been watching the whole thing. The thief is having none of it and sends the djinni flying back into the swarm of djinni, and the old djinni comes back immediately and gives the slave merchant some weird business card - but first, an exact replica of the actual business card. The slave merchant, strangely, seems to accept it, and invites the rough-looking man to dinner. Does the rough-looking man really want dinner? The answer is no, obviously, and that's when 648931e174
